

User Journey Maps

Student Journey

1. Discovery & Registration (Onboarding)

- **Create Account** - Register with student credentials
- **Manage Personal Profile** - Set up contact info and notification preferences
- **Browse Featured Collections** - Explore curated resources and new arrivals

2. Search & Exploration (Resource Discovery)

- **Search/Browse Resources** - Use keywords, filters, and categories to find materials
- **Browse Featured Collections** - Discover trending topics and recommendations
- **View Resource Details** - Check availability, reviews, and bibliographic info
- **Leave Resource Reviews** - Rate and review previously used resources

3. Access & Borrowing (Resource Acquisition)

- **Check Out Physical Resources** - Borrow available books and materials
- **Access Digital Resources** - Instantly download e-books and journals 24/7
- **Place Reservation Requests** - Reserve unavailable items and join queue
- **Request New Resources** - Suggest acquisitions for library collection

4. Active Usage (Engagement)

- **View Borrowing History** - Track previously used resources for citations
- **Renew Borrowed Resources** - Extend checkout period before due date
- **Export Citations** - Generate references in APA, MLA, Chicago, IEEE formats
- **Receive Notifications** - Get due date reminders and reservation alerts

5. Account Management (Maintenance)

- **Manage Personal Profile** - Update contact details and preferences

- **View Outstanding Fines** - Check and track payment status
- **Track Reservation Status** - Monitor queue position for holds
- **Customize Notifications** - Set email, SMS, or in-app preferences

6. Return & Feedback (Completion)

- **Return Resources** - Drop off borrowed materials at library
 - **Leave Resource Reviews** - Share feedback to help other users
 - **Request New Resources** - Suggest additions based on research needs
-

Faculty Member Journey

1. Discovery & Registration (Onboarding)

- **Create Account** - Register with faculty credentials and enhanced privileges
- **Manage Personal Profile** - Configure teaching and research preferences
- **Browse Featured Collections** - Explore academic resources and course materials

2. Search & Exploration (Resource Discovery)

- **Search/Browse Resources** - Advanced search for teaching and research materials
- **Browse Course Reserves** - Access materials by course or instructor
- **Browse Featured Collections** - Discover subject-specific and trending resources
- **Leave Resource Reviews** - Provide expert reviews for academic materials

3. Access & Borrowing (Resource Acquisition)

- **Check Out Physical Resources** - Borrow with extended periods and higher limits
- **Access Digital Resources** - 24/7 access to journals and research databases
- **Place Reservation Requests** - Priority reservation queue for teaching needs

- **Request New Resources** - Recommend acquisitions for courses and research

4. Teaching Support (Course Management)

- **Browse Course Reserves** - Access course-specific reserve collections
- **Request Course Materials** - Submit requests for student reserve items
- **Check Out Bulk Resources** - Borrow multiple items for teaching purposes
- **Export Citations** - Generate reading lists and bibliographies for students

5. Active Usage (Engagement)

- **View Borrowing History** - Track research materials for publications
- **Renew Borrowed Resources** - Extended renewal periods for research projects
- **Export Citations** - Multiple format support for academic writing
- **Receive Notifications** - Priority alerts for reservations and new materials

6. Account Management (Maintenance)

- **Manage Personal Profile** - Update research interests and teaching info
- **View Outstanding Fines** - Monitor account status and payments
- **Customize Notifications** - Receive alerts for subject-specific acquisitions
- **Track Reservation Status** - Monitor priority queue positions

7. Return & Feedback (Completion)

- **Return Resources** - Drop off borrowed materials
- **Leave Resource Reviews** - Academic feedback for course adoption
- **Request New Resources** - Continuous collection development input

Librarian/Administrator Journey

1. System Setup (Configuration)

- **Configure System Settings** - Set borrowing periods, fine rates, and policies
- **Manage User Accounts** - Create and configure staff accounts

- **Manage Library Catalog** - Initial catalog setup and organization
- **Bulk Operations** - Import resources via CSV/Excel files

2. Catalog Management (Content Administration)

- **Manage Library Catalog** - Add, update, remove resources with bibliographic details
- **Bulk Operations** - Bulk import and update resources
- **Manage Course Reserves** - Create and link course-specific collections
- **Handle Lost/Damaged Items** - Mark items and calculate replacement costs

3. User Administration (Account Management)

- **Manage User Accounts** - Register students/faculty, update privileges
- **Process Account Issues** - Suspend/block accounts for policy violations
- **Adjust Borrowing Limits** - Modify limits based on user type or needs
- **Review Audit Logs** - Track all account changes for compliance

4. Daily Operations (Transaction Processing)

- **Process Checkouts/Returns** - Scan resources and manage circulation
- **Manage Reservations Queue** - View, adjust, and prioritize holds
- **Monitor Overdue Items** - Track overdue resources and send reminders
- **Monitor System Activity** - View real-time transactions and user actions

5. Financial Management (Fines & Penalties)

- **Monitor Overdue Items** - Track fines and calculate charges
- **Manage Fine Balances** - View, waive, or adjust user fines
- **Handle Lost/Damaged Items** - Apply replacement charges to accounts
- **Generate Reports** - Financial reports on fines and charges

6. Analytics & Reporting (Insights)

- **Generate Reports** - Circulation stats, usage trends, and inventory analysis
- **Monitor System Activity** - Track search patterns and user engagement

- **Review Resource Requests** - Analyze acquisition suggestions from users
- **Export Reports** - Download in PDF, Excel, CSV formats

7. Communication (User Engagement)

- **Send Announcements** - Broadcast updates to all users or specific groups
- **Process Resource Requests** - Review and approve acquisition suggestions
- **Manage Notifications** - Configure automated alerts and templates
- **Moderate Reviews** - Review user-submitted content for appropriateness

8. Maintenance & Optimization (Continuous Improvement)

- **Configure System Settings** - Adjust policies based on usage patterns
- **Manage Course Reserves** - Update course collections each semester
- **Bulk Operations** - Periodic catalog updates and maintenance
- **Monitor System Activity** - Identify and resolve operational issues
